ILP 2020 – W3S3
Practice on for loops and lists

Matthieu DE MARI – Singapore University of Technology and Design

Midterm

- Midterm exam will be held on **Wednesday's sessions** (W4S2) for both groups.

- Each group will get a different version of the exam.

- Students should join the exam of their assigned group.
  → Let me know via email in case of conflict with other classes so we can organize.

- Exam will consist of an MCQ part (theoretical questions about programming concepts).

- And some coding activities.

Midterm

- Content will be all three weeks (from beginning until lists).

- More details on the exam (format, duration, submission procedure, etc.) will be presented on W4S1.

- Also emails, edimension, etc.

- W4S1 will not introduce any new concepts. Instead,
  - Discuss the midterm details and mock test.
  - Practice concepts such as testing, error management and debugging.
